

## Dr. Sue Mitra Joins BPN Via MAB

**B**revard Physicians Network is pleased to welcome Dr. Sue Mitra, one of our newest Primary Care Physicians. Dr. Mitra recently joined BPN via Medical Associates of Brevard, one of the largest physician groups affiliated with the BPN network.

Medical Associates of Brevard was founded in 1996 with seven physicians and has grown to over 30 physicians in order to provide high quality medical care for the community. All major specialties are covered in the practice and most health insurance companies are accepted. MAB's physician offices are located throughout Brevard County, Florida, from Viera to Palm Bay.

"Primary care physicians are the life blood of our network, and we work diligently to recruit PCP's that are not only great doctors like Dr. Mitra, but great medical managers as well," said BPN CEO Brenda Radke.

Dr. Mitra was formerly practicing with Osler Medical, but decided to open her own practice last August in the Imperial Plaza at 6769 North Wickham Road in Viera.

"BPN offers our office the chance to have a large voice yet remain an independent physician office," said Dr. Mitra.

Dr. Mitra is board certified in internal medicine and has been practicing in Brevard since 2002. She earned her medical degree at the University of Calcutta, India. Upon graduation from Calcutta, Dr. Mitra was residency trained at the University of Florida College of Medicine where she also performed a year of clinical research in cardiovascular medicine.

### PROVIDING COMPASSION & CARE

A member of the American College of Physicians and the American Society of Internal Medicine, Dr. Mitra has been published in medical periodicals, and has also served as the President of the Brevard Indo-American Medical and Dental Association.

DR. SUE MITRA, left, with Mike Shah during a function as president of BIMDA.

"Our goal is to treat all of our patients with dignity, professionalism, compassion and care," said Dr. Mitra. "We strive to keep our patients healthy with our primary care services, but also assist in helping patients with chronic diseases such heart disease, hypertension, diabetes and weight management issues."

Dr. Mitra's practice also focuses on metabolic screening, cancer screening, routine job physical exams, mental health screening and counseling, tobacco cessation, osteoporosis screening and preventive medicine such as pap and pelvic examinations. She has hospital privileges at Holmes Regional Medical Center and Wuesthoff Health Systems in Melbourne, Florida.

Dr. Mitra accepts most insurance plans and is currently welcoming new patients. For more information log on to [www.SueMitra.com](http://www.SueMitra.com), or call 321-622-2222 to schedule an appointment. ■
